SE – Introduction to Web Technologies – HTML and CSS

Session – 2

1. **Create a new HTML file called foodie-profile.html with the full HTML5 boilerplate structure (<!DOCTYPE html>, <html>, <head>, <body>), and set the title to 'My Foodie Profile'.**

Ans : -

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>My Foodie Profile</title>
</head>
<body>

</body>
</html>
```

2. **Inside foodie-profile.html, add headings and paragraphs to introduce yourself as a food lover, including your favorite cuisine and a short story about your best meal.**

Ans : -

```
<h1>My Foodie Profile</h1>

<h2>About Me</h2>
<p>Hello! My name is Rahul. I am a food lover who enjoys trying different
cuisines and exploring new restaurants.</p>

<h2>My Favorite Cuisine</h2>
<p>My favorite cuisine is Indian because I love its rich flavors and variety
of dishes.</p>

<h2>My Best Meal</h2>
<p>The best meal I ever had was a delicious Punjabi thali with butter naan,
paneer butter masala, dal makhani, and gulab jamun.</p>
```

3. **Add an unordered list of your top 5 favorite dishes (like you'd see on Zomato), and a numbered list of 3 restaurants you want to try next.**

Ans : -

```
<h2>Top 5 Favorite Dishes</h2>
<ul>
```

```
    <li>Paneer Butter Masala</li>
    <li>Biryani</li>
    <li>Masala Dosa</li>
    <li>Pizza</li>
    <li>Gulab Jamun</li>
</ul>

<h2>Restaurants I Want to Try Next</h2>
<ol>
    <li>Bukhara</li>
    <li>Barbeque Nation</li>
    <li>The Bombay Canteen</li>
</ol>
```

4. **Insert an image of your favorite dish using the <img> tag, and make the image clickable so it opens the official website of that dish or restaurant in a new tab using an anchor (<a>) tag.

Hint: Use target="_blank" in your anchor tag.**

Ans : -

```
<h2>My Favorite Dish</h2>

<a href="https://en.wikipedia.org/wiki/Paneer_butter_masala" target="_blank">
    <img src="paneer-butter-masala.jpg"
         alt="Paneer Butter Masala"
         width="300">
</a>
```

5. **Create a table that compares 3 food delivery apps (e.g., Zomato, Swiggy, Uber Eats) with columns for App Name, Delivery Charges, and Rating. Fill in sample data for each.**

Ans : -

```
<h2>Food Delivery Apps Comparison</h2>

<table border="1">
    <tr>
        <th>App Name</th>
        <th>Delivery Charges</th>
        <th>Rating</th>
    </tr>
    <tr>
        <td>Zomato</td>
        <td>₹40</td>
        <td>4.5/5</td>
    </tr>
```

```
    <tr>
        <td>Swiggy</td>
        <td>₹35</td>
        <td>4.6/5</td>
    </tr>
    <tr>
        <td>Uber Eats</td>
        <td>₹45</td>
        <td>4.3/5</td>
    </tr>
</table>
```
